John Van Buren and His Party Friends—  
Governor Seymour—a Fool, and an  
Accident—Haskins a Stage Man—  
Letter from Special Deputy.

ALBANY, Oct. 15, 1865.

To the Editor of the Albany Evening Journal:

My attention has been called to an article in the Journal, asking from me the rest of the conversation had between John Van Buren and myself, when he was here, part of a Albany speech. As Mr. Van Buren gave the public such a frank rendering of what I said, and has delayed so long without narrating what he said, I can account for his reticence, only on the ground of his well-known modesty, and must believe he has told part of the conversation in order to render the publication of the remainder necessary.

Mr. Van Buren seemed anxious about the probable action of the Union Convention, and asked me "if we would nominate Seward, or if he would be a good candidate for the Democratic ticket who had herefores acted with the Union party." I told him "No but that we could make a clean ticket, and have a square stand-up fight."

He spoke of General Haskins, and said of him "he is a remarkable personal courage and brilliant individual achievement, his record was very remarkable."

John said "Governor Seymour had a letter from Judge Denio to be read to the Tweedie Hall Convention, but circumstances rendered it that the Governor to leave at such an early hour that Judge's effort had been lost to the world."

Said Mr. Van Buren: "Seymour is a d— fool. He spoilt everything at Chicago, and has been the cause of most of the disasters to the Democratic party. I am sure that the Governor had more strength with the rank and file of that party than any of its members, and was its representative man. John said "that was all nonsense;" that "the Governor is continually deciding the other candidates for the nomination, but his friends objected to that. In the good old days of the Democratic party," said he, "when anybody spoke of his friends as not pleased with any course projected or determined, he meant my father or Silas Wright, and when another spoke of his friends to the Democratic party now, he meant Mr. Richmond, Mr. Cagger, or some man who controls; but who Seymour refers to when he speaks of his friends, nobody knows. If they exist at all, they do not appear among his regular supporters."

John did not mention Mr. Marble, of the New York Herald, in his list of Democratic leaders, for Marble is a friend of mine, and his paper has spoken of me in the fairest and kindest way nearly every day for some months past."

"Seymour was the most extraordinary political accident that had ever appeared in American political life. A quiet accident," said he, "who says nothing and falls into prominence, and, by being often found out, comes up again is beyond understanding."

"He is a remarkable man, and has great strength in the Democratic party. Your people make him all that he is by abusing him, which renders it necessary for our people to defend him, because he happens to belong to us. He would have gone out of sight long ago, had every man and his friends objected to that."

"In the good old days of the Democratic party," said he, "when anybody spoke of his friends as not pleased with any course projected or determined, he meant my father or Silas Wright, and when another spoke of his friends to the Democratic party now, he meant Mr. Richmond, Mr. Cagger, or some man who controls; but who Seymour refers to when he speaks of his friends, nobody knows. If they exist at all, they do not appear among his regular supporters."

Three of the Eagle Speed's boats were washed, manned, by the crew. Including the Coolies who threw themselves into the water on hen coops, the boats saved one hundred and sixty-nine, and all the European coolies were saved. The American coolies, however, also escaped. J. L. Allen, for whom Governor Sharkey is opposed to the negro testimony bill and in favor of abolishing the special court of equity, established by Provisions of the Convention, and recognized the Convention, are of opinion that he will be elected by a considerable majority. The latter has the advantage of Holden in his record as a Union man, and also from the fact that he is pledged to the payment of the State's debts, a matter which the negroes, it is said, are not anxious to have paid.

Allen, however, is a man of great energy and a brilliant individual achievement, his record was very remarkable."

NEW YORK, Nov. 1.—A special to the Tribune dated Washington, October 31, says: "Report Major General James R. Hawley, late Chief of Staff to General Terry, commanding at Richmond, has resigned his commission and returned to the editorship of the *Harvard Press*."

Mr. Hawley is going to Europe for the Government in purely and entirely professional and not diplomatic, as has been extensively circulated.

WASHINGTON, Oct. 31.—To-day the President pardoned Pierre Soule.

Brigadier General Savage, Commissioner of the Freedmen's Bureau for Alabama is in Washington, accompanied by Governor Parsons, with a view to obtain the Executive sanction to a certain measure of policy relative to the affairs of that State; also to obtain supplies for the freedmen, who are loudly demanded and in short supply.

The Tribune says that the friends of Alabama are favorably disposed to the introduction of Northern capital and energy, and that the opportunities for favorable investment are very great.

Large numbers of the officers and soldiers retiring from the army are not leaving the country for the purpose of plantations and becoming residents.

By order from the Quartermaster General, the attention of officers on duty in the several military departments is called to the great number of animals belonging to the United States in the possession of troops, and the general title or right of claim thereto. Such animals will be seized wherever found, and turned over to the nearest Quartermaster. The persons in possession of disputed property must show title thereto, and, if unable to do so, authorized Government agents, in the brand "N. C. or S." or by the report of some duly authorized Government officer.

Jeff. Davis has ordered a new beaver-stoof overcoat of a merchant tailor in this city, who was his old time servant.

The manufacturer of the garment is engaged in carrying out the measurement taken in 1860, and will probably insist on advance payment, leaving Jeff. to take all the chances on the investment.

The Washington Monument Association will go before Congress to-morrow for another application in payment of the shaft. The last annual report of the Treasurer showed the receipt of about \$11 in popular subscriptions from all sources. About \$300,000 are required to carry the monument to the proposed height.

NEW YORK, Nov. 1.—The steamer Saxon from Bremen has arrived. News anticipated. She has over seven hundred passengers.

The Herald's Matamoras correspondent of the 12th ult. states that the attack by the Liberals on Matamoras commenced on the Sunday previous, and the fact of their being led up the three hills battle of the city, before they were repelled by American officers, as they never formed that way before. The Liberals held their ground, and the most constant vigilance by the garrison only prevents its being nightly surprised.

All communication with the interior is shut off.

WASHINGTON, Nov. 1.—It seems from recently official intelligence that reorganization in Arkansas has progressed quietly and is a success. President Johnson has informed the Governor of that State that there will be no interference with its government, and that he does not invite the State to become its formal associate with the Federal Government but promises it all the aid of the power of the Government in the premises.

Hon. James L. Orr, Governor elect of South Carolina, was pardoned some weeks ago, but the State has not repudiated the rebel debt she has failed to prepare herself for official recognition as a State loyal to the Union.

NEW YORK, Nov. 1.—The Scolca has sailed, taking Sir Morton Petre and party, and some 150 persons in its steerage.

The Tribune's Washington correspondent says of Jeff. Davis' trial: Messrs. Speed, Ronseal, Everts and others, counsel for the Government, announced in a New York paper as positively determined that was true in August, but is not true now. Public opinion is for a trial.

It is admitted as a fact that any trial in the Southern States would be a farce that the Southern States unanimously desire his pardon; that the majority of the Democratic party held the same opinion; and now that the leaders of the rebellion, of the Republican party, have expressed their desire, it is believed that it will be taken as granted that a majority of the nation are opposed to his punishment.

At Pittsburg on noon yesterday there were eight and a half feet water in the channel, and falling with clear weather. At Cincinnati it had fallen eight inches. We expect more rain to-morrow.
